

**SKIPPER**  
BATH FITTINGS

Style

THAT SUITS YOUR BATHROOM

w.e.f. 1<sup>st</sup> April 2026

In rivers, the water that  
you touch is the last of  
what has passed and the  
first of that which comes;  
so with present time.

– Leonardo da Vinci

 **SKIPPER LIMITED**

## A word on Quality and Trust

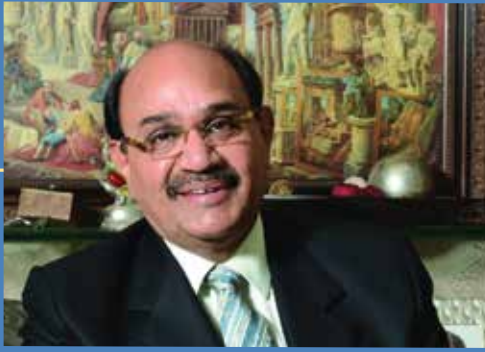

Skipper Limited is one of the world's largest integrated Transmission Tower manufacturing companies with Angle Rolling, Tower, Accessories & Fastener manufacturing and EPC line construction. Our manufacturing capacity is the largest in India and among the top 10 in the world. Skipper Limited is a national powerhouse in the Polymer Pipe business too. Under the brand name of 'Skipper', the company manufactures huge range of premium quality pipes and fittings, which are used in different areas such as Plumbing, Sewage, Agriculture and Borewell sectors. Additionally, it is IT enabled and a number of operations are carried out on various ERP platforms. We are fast evolving from an eastern regional company to a national brand.

Here and now, we are introducing our new range of products – Skipper Bath Fittings and accessories.

A relationship built on trust and honesty grows stronger with time. Just like the one Skipper Pipes and Fittings has built with its customers. We hope to build the same with our finest quality bathroom fittings, meeting the customers' lifestyle aspirations with the promise of trust.

### SALIENT FEATURES OF SKIPPER BATH FITTINGS

- A Value Brand • 10 Year Warranty\*
- Foam Flow • Quarter turn • High Quality
- Saves Water • Wide Range of Products
- Trusted Customer Service

## A word on the future as we see it

Dear Business Partner,

Heartiest greetings from Skipper Pipes. The journey of Skipper Pipes began in the year 2009. Since then, we have been on a strong growth trajectory by continuously expanding our presence through our distributors and retailers.

We, at Skipper, are grateful to have you on board with us and thank you for your constant belief & trust in the Skipper brand. When I look back at our journey together, I feel delighted to see the many milestones we have achieved together.

I am confident, we will continue this partnership and achieve many more milestones in times to come.

Now, we take immense pride in announcing the launch chrome plated Skipper Bath fittings. We are quite sure that this initiative will further strengthen our bond of mutual trust & commitment and help us grow & prosper together.

We will ensure the quality of the products which has been designed, keeping in mind the style that suits your plumbing needs.

I look forward to your active participation to strengthen our relationship.

Wish you all the very best. Thank you,

Best regards

Sajan Kumar Bansal  
Managing Director  
Skipper Limited

Skipper Limited  
Presents  
a beautiful series  
of Bath fittings  
that brings to you  
design innovations,  
powered by  
flawless functionality

Each product assimilates science and art to create unique features that truly understand your bathroom needs. With the assurance of durability and perfect finish, Skipper Bath Fittings is built to deliver bathrooms that truly understand you.

Featuring a seamless blend of abundant flow, world-class aesthetics and innovative technology, each range of faucet is powered by truly unique features that have you in mind. Each faucet has been created for ease of operation and is enhanced by powerful performance and expert finish to achieve smart, sensible bathroom spaces. Expert craftsmanship and sensible science create the assurance of durability and performance. Effortless and sturdy, iconic and breath-taking, Skipper Bath Fittings is crafted to truly understand your world.

# Manufacturing Process

## CASTING

The start of a Skipper Faucet: Currently still a raw and inconspicuous brass bar, the raw material melts in the furnace at over 1000 degree centigrade slowly taking on a recognizable form. The faucets are manufactured using IMR gravity casting machine from Italy.

## MACHINING

The faucet undergoes a completely mechanized machining process. The cutting-edge technology and highly experienced manpower ensure an optimal level of smoothness and finish to the gravity casting body.

## POLISHING

Now the casted body is polished by hand to give it an impressive shine that lights up your bathroom's looks. Automatic polishing machines are also used to increase production capacity.

## PLATING

The faucets are then placed in an electrolyte immersion bath. It is bathed in several such baths for up to an hour. In one of the most modern plating systems the faucet now receives a brilliantly shiny chrome layer that ensures durability.

## ASSEMBLING

A single faucet comprises of 30 individual components. Specialized workers assemble each part by machines and by hand. And finally every product is tested for leaks and 'optimum spray performance' before they leave the factory.

# Salient features of Skipper Bath Fittings

## Chrome plated :

"Skipper" uses the latest plating technology to give an aesthetic and elegant look. The mirror shine finish not only gives the rich looks but also act as a protecting layer to save from corrosion.

## Zero leakage or leak free :

Skipper faucets are designed and tested with water and air pressure to ensure zero leakage.

## Quarter turn series :

The internal cartridges of all qtr. turn series are fitted specially designed to ensure soft movement and free flow water even on normal pressure. Good quality internal parts will ensure flawless performance.

## Foam Flow :

The aerator is added to the faucet head for no-splash flow, to create an even stream of water and to save water.

## Saves water

Using of the green technology that gives features like Quarter Turn and Foam Flow makes Skipper Bath Fittings' faucets extremely efficient in optimum use of every drop of water, making it future proof.

Many in the world are searching, often intensely, for a source of refreshment that will quench their yearning for meaning and direction in their lives. They crave a cool, satisfying drink of insight and knowledge that will soothe their parched souls.

My life at home gives me absolute joy. There are some days when, as soon as you've finished cooking breakfast and cleaning up the kitchen, it's time to start lunch, and by the time you've done that, you're doing dinner and thinking, 'There has to be a menu we can order from.'

---

Julia Roberts

## QUALITY ASSURANCE

QUALITY IS NOT A PARAMETER; IT'S FOR LIFETIME

A brand is known for its innovative products and superior quality. We leave no stone unturned to ensure that every product comes out with our consistent commitment towards perfection. All the manufacturing processes are seamlessly integrated to facilitate the ease of operation - both online and offline testing ensures that the quality standards are of the highest order.

## QUALITY POLICY

- Strategize and improve the QMS process with competent and motivated work force to satisfy the needs & expectations of all the interested parties and fulfil the applicable statutory / regulatory requirements
- Upkeep brand reputation & trust by offering superior quality and innovative products through continual improvements in design & process

## QUALITY OBJECTIVE

- To adopt / follow the best design & manufacturing practices to achieve the expected quality standard
- To continuously evaluate and monitor the satisfaction of the interested parties
- To train the employees on QMS (Quality Management system) awareness
- To motivate the employees through involvement and delegation of responsibilities for continual improvement

## WARRANTY GUIDE

Warranty period shall start from the date of invoice and automatically terminates upon the expiry of the warranty period even if the products have not been installed after purchase or have been in the use for any part or whole of the warranty period for any reason whatsoever.

This warranty is only collective if the defective product is substantiated with the proof of the purchase such as Invoice copy, Warranty card.

This warranty remains applicable only if the product has at all times been used strictly in accordance with the terms of this warranty and has not been improperly or negligently handled.

No extension of the warranty period will be granted. This warranty is only applicable for the manufacturing defects and under no circumstances, the manufacturer will be liable for any other defect caused due to indirect, incidental and consequential damages of any kind.

1. Skipper Bath Fittings Warranty 10 yrs applicable in chrome fittings product.
2. Skipper Accessories / Showers / Health Faucet warranty will be for one year.
3. No warranty will be applicable in rubber / all washer's parts.
4. No warranty will be applicable in wall flange.
5. For commercial use product warranty will be 7 years

For any problem or query on the product, the customers can call us on the toll free number mentioned in the packaging. For more details regarding the warranty, please read the warranty guide given in the packaging of the product.
